**NEWSLETTER
July2011**

Dear Guests,

Thank you once again for filling in your room comment forms. This has been very helpful to us in gauging our success (or not). Please continue to do this. We have also made it a habit to personally reply to many of your comments.

The Lodge now has satellite phones, and you should no longer have any problems getting hold of the Lodge either by telephone, fax or e-mail.

Following on a guests statement, that the Lodge was a cold building, we are in the process of inserting air conditioners to both the Diningroom and Restaurant areas. We are also putting air conditioners in all the rooms of the Lodge, doing one block at a time on a monthly basis, and will be finished by the end of this year.

The game has destroyed what Lodge gardens there were, and is busy with the lawns, as well. This will all recover marveously in the summer, when the game moves off to greener pastures and away from the Lodge. In the meantime, large herds of game roam the immediate lodge area at night, and you will be thrilled to see them if you drive in after dark.

We are getting the dirt roads and parking areas reassessed, with the hope that we can upgrade this to an all-weather gravel road, or possibly even tar the roads. The latter would of course be a pity for a game lodge, but many people don't like using their smart cars on dirt roads.

The swimming pool, which is a central feature of the Lodge, is being redone and upgraded.

Our very best regards

Owners

June and Brian Wilson
